**Contract to use DOGBASE with data of ADRK**

Name: \_\_\_\_\_ ADRK-Membership #.: \_\_\_\_\_

Street: \_\_\_\_\_

ZIP Code, Town: \_\_\_\_\_

Tel-Nr.: \_\_\_\_\_ Fax-Nr.: \_\_\_\_\_ Update: yearly  / 4 times / year

I am a member of ADRK and want to use the programme DOGBASE with data of ADRK with above mentioned updating intervalls and confirm my agreement to the following arrangements.

DOGBASE is protected by copyright. This includes the programme itself as well as the data of ADRK. Use is only permitted for private purpose. Forwarding to other persons, transmitting to other media (books, databases etc.) and copying the data is prohibited and will be prosecuted.

The license is valid for one computer and one user only and lasts until the end of the contract. The contract is made for one year and will be prolonged if it's not cancelled 3 months before its end. Termination is required to be in written form and right in time.

After termination of the contract all data have to be erased, updates are stopped then.

Termination of membership of ADRK means also termination of DOGBASE contract without an explicit cancellation. All Data have to be erased in this case, too.

For technical support TG-Verlag has to be contacted. This only means problems which are told in written form and are related to DOGBASE directly. For general problems with hardware or software your PC dealer has to be contacted. Questions regarding data of ADRK can be directed to the main office of ADRK. Neither ADRK nor TG-Verlag are responsible when hardware or software configurations of the user are changed.

Programme and data are delivered on disk together with a short manual for the first time. Delivery only starts after concluding this contract and after the fee is booked on the account of ADRK. Updates will be delivered routinely after the fees are booked and without an explicit request.

Delivery of DOGBASE is synchronized with delivery of the studbook (Zuchtbuch) of ADRK. That means starting point is always end of April of a year. So in the yearly version the next update is delivered and has to be paid to this time of the following year no matter when the contract is sent to ADRK.

The actual fee for DOGBASE is **116,- DM** in the version of yearly updating. The quarterly update version costs **302,- DM** for a whole year. Rising prices is up to ADRK or TG-Verlag. The fee is requested to be paid in advance by cheque, bank transfer postal order or cash. Please note that there is a bank fee of about 15,- DM for foreign cheques.
